

HOW TO SCHEDULE THE ISENS USING THE WEB SITE

1. Login on the website using your email and password.

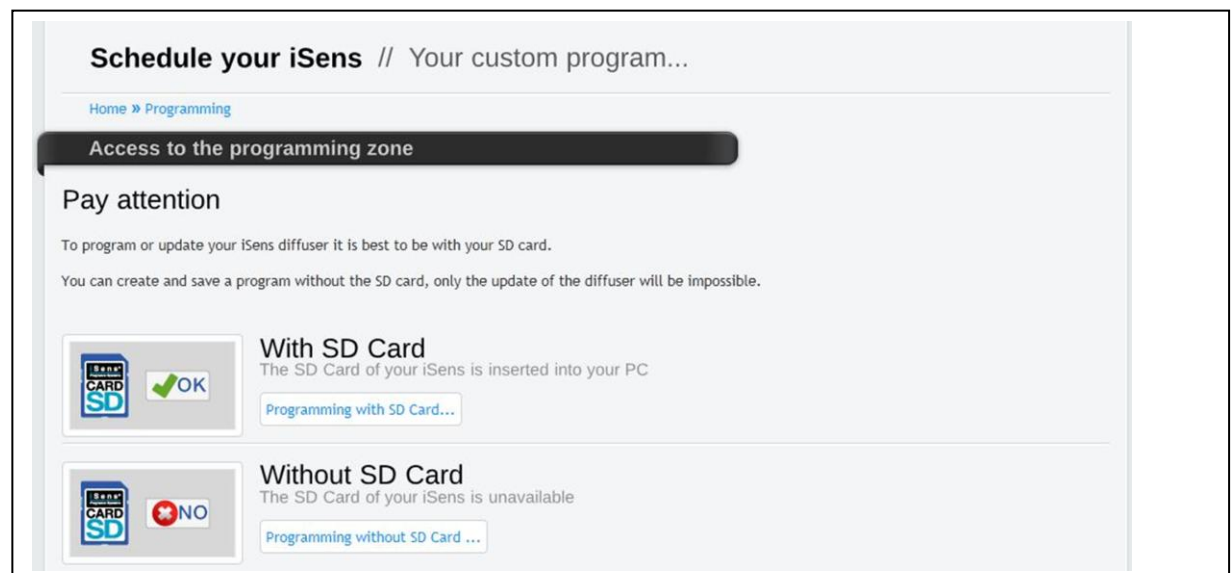

The banner features a dark background. On the left is an image of a padlock with an iSens logo. To its right, the text 'Sign in to your account.' is displayed. Below this are two input fields labeled 'Email' and 'Password', followed by a 'Sign in' button. A link 'Forgot your Password?' is positioned below the email field. On the right side of the banner, the text 'Not a member yet? register now and get started.' is shown, with a 'Register for an account' button below it.

2. Click on PROGRAMMING

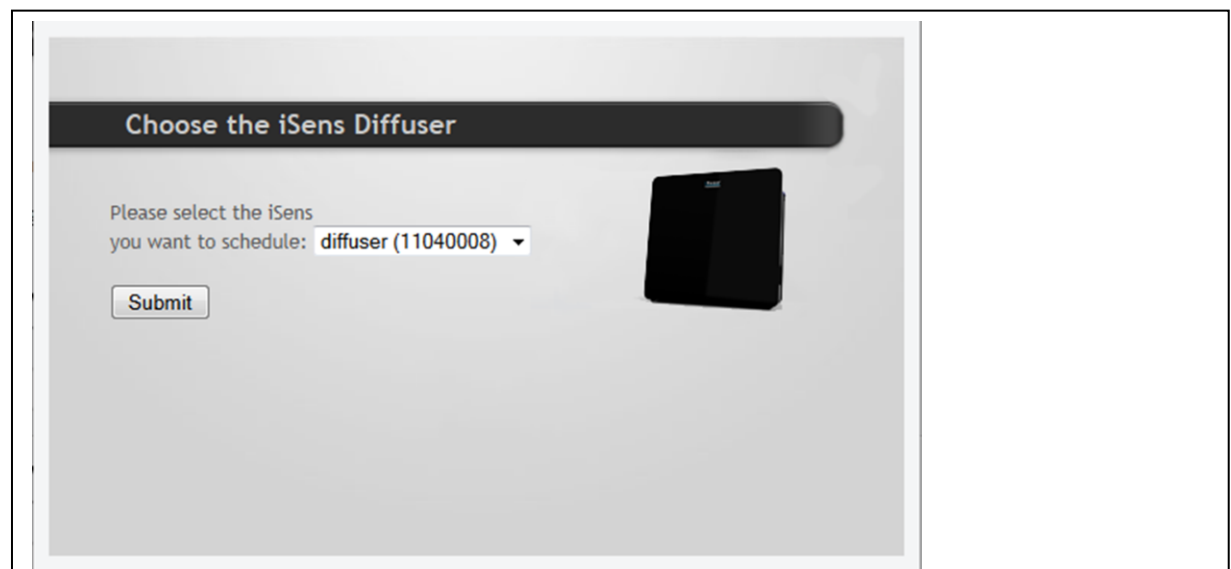

3. To go faster click on "Programming without SD Card"

The page is titled 'Schedule your iSens // Your custom program...'. Below the title is a breadcrumb 'Home » Programming'. A dark bar contains the text 'Access to the programming zone'. Underneath, the heading 'Pay attention' is followed by two paragraphs of text explaining the importance of an SD card. Two options are presented: 'With SD Card' (with a green checkmark icon) and 'Without SD Card' (with a red X icon). Each option has a corresponding button: 'Programming with SD Card...' and 'Programming without SD Card ...'.

4. A window opens to enable you to choose the diffuser which you will schedule.

The window is titled 'Choose the iSens Diffuser'. It contains the text 'Please select the iSens you want to schedule:' followed by a dropdown menu showing 'diffuser (11040008)'. Below this is a 'Submit' button. To the right of the text is an image of a black iSens diffuser.

5. Once selected, you arrive on the summary page of your diffuser.
Here the diffuser is as follows

Home » Programming » Summary

Your iSens Global Datas

Type	Classic
Firmware	0.0
Serial N°	11 04 0008
Date and Time of your iSens	14/04/2011 13:08

Type	Classic
Firmware	0.0
Serial	11 04 0008
Date	14/04/2011 13H08 Local Time

Current scheduling of your iSens [New Sequence](#)

Your iSens does not have a schedule

The Diffuser does not contain any program

6. Click on “New Sequence”. You are now on the programming page.
7. Follow the 4 Steps
- Define the operation mode: continuous or sequential.
 - Into Sequential Mode the diffuser functions according to your program by making cuts according to time's that you defined.

Scheduling your iSens
